**LEA DANDREA NAMED VICE PRESIDENT, INNOVATION  
& INFORMATION FOR INGLIS FOUNDATION**

(Philadelphia, PA) – **Lea Dandrea** joins Inglis Foundation as vice president, innovation and information. Ms. Dandrea comes to Inglis from Children’s Hospital of Philadelphia where most recently she served as ambulatory program director.

As Inglis’ vice president, innovation and information, Ms. Dandrea is responsible for developing strategies to ensure that consumers and staff have the information, work processes, training and capabilities they need to achieve Inglis’ strategic and operating goals. This includes providing staff with necessary information systems, technological support, information security and business continuity planning. She will also partner with Inglis’ CEO to foster organization-wide innovation and to develop innovative adapted computing strategies that benefit both Inglis House residents and the disability community as a whole.

Ms. Dandrea has over 25 years experience in direct care delivery and streamlining healthcare operations. During her tenure at Children’s Hospital she led multiple implementation teams to move existing services into new facilities, enhance revenue, standardize clinical documentation, provide project management and process redesign services and develop competency-based orientation programs for clinical support areas of the hospital.

Prior to her tenure at Children’s Hospital, Ms. Dandrea served as senior implementation manager and principal consultant for Siemens Medical Systems

## **DANDREA NAMED VICE PRESIDENT, INNOVATION & INFORMATION (2/2)**

(formerly Shared Medical Systems) from 1987-2001. She earned a Bachelor of Science degree in Nursing from the University of Pittsburgh. She resides in Malvern, PA.

**Inglis Foundation** works with people with physical disabilities to create and provide practical solutions so they may pursue their life goals. All of Inglis' services and programs are designed to enable people with physical disabilities to enjoy life with the greatest amount of independence and mobility.
